

Peter Horvath
Frontend Developer

Peter Horvath is Frontend and Prototype developer being employed by Innovációs Tanácsadó Kft. He implements fully featured prototypes, clickable dummy mockups and small production applications for clients. During the more than 15 years of his professional life working in IT, he was full stack software developer, system architect and migration specialist, project/program management, accounts payable financial system subject matter expert & people manager. He was leading company-wide IT group transitions for years and mediating between financial and IT projects. Peter studied and accomplished Master level of Information Technology in Veszprém, Hungary.
